The Best Technologies for Material Recycling

SPACCAMOTORE

 Macchina in grado di rompere interi blocchi motore e trasmissione in piccoli pezzi. Funzionamento semplice - Bassi costi operativi - Facile manutenzione. La macchina può essere fornita completa di sistema automatico per la separazione acciaio e alluminio.

 Machine capable of breaking integers block engine / transmission into small fragments. Simple operation - Low operating costs- Easy Maintenance. The machine can be supplied with automatic separating system of steel / aluminum.

SPACCAMOTORE Technical Data

Dimensions	
Length tot	4.600 mm
Width	1.200 mm
Height	1.070 x 950 x 750 mm
Pressing box	6.2 tons
Weight	
Main Engine	11 kW
Secondary Engine	3 kW
Maximum operating pressure	300 bar
Working temperature	-20 / +40 °C
Variable displacement piston pump	No. 1 x 120 lt. / Min.
Gear pump auxiliary services	No. 1 x 24 lt. / Min.
Electro distributor 24 V single block of steel complete of solenoid valves for all functions	No. 1
Production capacity	2-2.5 ton/h
Hydraulic oil tank	500 lt.
Thermo resistance heating oil, radio remote control, Alarm low oil, a proken pipe or clogged filter
